## PROFESSIONAL SUMMARY

Results-driven Fullstack Web Developer with hands-on experience building and deploying modern web applications using Laravel, PHP, and JavaScript. Skilled in both backend development and frontend interactivity, delivering complete and user-focused solutions. Experienced in developing systems such as expense tracking applications and business management tools. Strong understanding of application architecture, API integration, and database design. Comfortable working independently and focused on writing clean, scalable, and maintainable code.

## TECHNICAL SKILLS

- **Backend Development:** PHP, Laravel, MVC Architecture, RESTful Routing, Eloquent ORM, Middleware, Authentication & Authorization
- **WordPress Development:** Theme Customization, Plugin Configuration, WooCommerce Setup, Basic Plugin Modification, Performance Optimization, Hosting & Deployment
- **Frontend:** Blade Templating, HTML5, CSS3, Bootstrap, Basic JavaScript
- **Database:** MySQL, Database Migrations, Seeders, Relationships (One-to-One, One-to-Many, Many-to-Many), Basic Query Optimization
- **Tools & Workflow:** Git (Version Control), XAMPP, VS Code, Postman, Shared Hosting / VPS Deployment

## PROJECT EXPERIENCE

### School Management Portal (Laravel)

*Tech Stack: Laravel, Blade, MySQL*

---

- Designed and developed a full-featured school portal for managing students, staff, and academic records.
- Implemented secure role-based authentication for Admin, Teachers, and Students.
- Built modules for result management, student records, and administrative dashboards.
- Applied structured database relationships to manage academic data efficiently.
- Successfully deployed and configured the application on a live production server.
